

37655

Excellent chemical protection with a good level of grip, fit and comfort

High-comfort, chemical resistant glove for a wide range of applications

- High performance nitrile compound provides an outstanding combination of chemical resistance and strength.
- Offers superior snag, puncture and abrasion protection over rubber or neoprene gloves.
- High levels of flexibility, comfort and dexterity.

Industries

- Automotive
- Automotive Aftermarket
- Food Processing
- Metal fabrication
- Oil and gas
- Chemical

Applications

- Delivery of parts to production line
- Welding
- All food processing applications that have food contact
- Forging operations
- General pumping work
- Handling incoming goods
- Filling, blending and charging of raw materials
- Opening and draining pumps valves or lines
- Loading and unloading of proces equipment
- Transferring liquids and solids between vessels and tanks and process equipment
- Supervision of running operation
- Handling outgoing goods: cans, vessels, bulkpack and cartons
- Testing
- Opening furnaces draining pumps valves or lines and crackers BTX process

37655

Excellent chemical protection with a good level of grip, fit and comfort

Key Features

- Designed to deliver optimal results in wet or dry work environments where chemical resistance is crucial
- Fully reusable, with an unequaled abrasion resistance

- Provides superb comfort for the wearer
- Food Approved
- No inner cotton flocking, reducing risk of lint contamination and making it ideal for production areas sensitive to the introduction of external impurities
- The sandpatch finish gives the glove a smooth surface that decreases indirect costs thanks to fewer rejects of fragile parts

Vulcanization Chemical Accelerators

- Hexahydro-1,3,5-triethyl-s-triazine
- Zinc Dibutyldithiocarbamate
- Zinc 2-mercaptobenzothiazole

Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.
