

# 407B

Medium weight antimicrobial cut resistant food glove

The 407B medium weight cut resistant food handling glove is the optimal balance between high cut resistance, durability and flexibility. Suitable for medium duty meat carving and deboning, fish processing and filleting, the glove delivers good grip even when animal fats are present.

An extended cuff provides added protection to the wrist area. Can be industrially laundered at up to 92°C.

## Features & Benefits

- EN388: 2016 level F cut resistance
- Permanent antimicrobial component
- May be washed at up to 92°C
- Colour coded to prevent cross contamination
- Extended cuff for added protection
- Designed for knife hand use
- Ambidextrous

## Applications / Industries

- Meat carving and deboning
- Butchery
- Fish filleting and processing
- Suitable for beef, pork and poultry

Tilsatec antimicrobial food gloves do not contain any glass materials which may fibrillate and break off when in contact with food stuffs. Gloves are suitable for contact with all food stuffs in compliance with EC Regulation 1935/2004.
