

# ThermaTech <sup>DC309</sup> -50°C Ultra Grip Wellingtons

Customizable boot height

100% Non-metallic

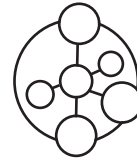

Oil, fat, chemical resistant

Kick off spur heel

-50°C / -58°F

Best BASF Polyurethane

Anti clog Outsole

The Bodytech ThermaTech offers the best comfort, safety and durability in cold environments. It offers thermal insulation down to -50°C / -58°F. These wellingtons will keep your feet dry and warm in the coldest working conditions. The boots are resistant to oils, fats, organic solvents and a variety of chemicals. The ultra grip SRC outsole offers superior safety in all conditions. Thanks to the best BASF Polyurethane raw material these are extremely comfortable thermo boots. Lightweight, strong and flexible with a durability 3 to 4 times longer compared to the traditional pvc and rubber boots. The superior durability offers important cost savings. The orthopedic, removable footbeds with arch support give the comfort you deserve. ThermaTech is the best solution for cold environments. No heavy or tired legs after a hard day's work. ThremaTech has the following certificates: CE, CSA, S4, S5, SRC (SRA + SRB), CI (cold insulation).

### Technical Features

- A very comfortable and versatile fully waterproof Thermo working boot for all activities.
