

MT52 - Anti Fatigue Mat Heavy Duty

Collection: Anti-Fatigue Mats

Range: Safety Mats

Materials: Nitrile, Rubber

Box Quantity: 4

Product information

High quality standard ringmat gives a non slip surface with excellent drainage. Anti fatigue beads located on the underside of the mat ensure comfort for longer durations. Connection edges allow easy extension of size and length when needed. Weather proof hard wearing material suitable for both outdoor and indoor areas.

Anti-Fatigue Mats

Anti Fatigue matting is ergonomically designed to reduce stress caused from long periods of standing by actively working the legs. This increases blood flow to an ideal rate and prevents numbness and aching in the feet. Cushioning abilities provide a soft, comfortable effect whilst maintaining a correct posture and allowing users to work for a longer duration with less irritation whilst insulating feet from cold surfaces.

Standards

DIN 51130:2014-02 R10

Features

- Designed to give you extra traction decreasing your chances of slipping
- Suited for food processing plants and resistant to greases, animal fats and oils
