

## Green high-performance reusable nitrile gloves, ensuring liquid repellence and excellent grip

- **Enhanced grip:** AlphaTec® 37-200 food handling gloves are designed with UltraGrip™ Technology, featuring a diamond grip pattern that ensures a secure grasp over wet or oily components
- **Reduced allergy and contamination risks:** Free from latex and unflocked by design, these safety gloves reduce the risk of wearers developing Type 1 latex allergies and keep food safe from contamination
- **Food handling compliance:** Lightweight, reusable and compliant with FDA food handling requirements, AlphaTec® 37-200 nitrile gloves are ideal for various food processing applications
- **Genuine versatility:** Flexible and dexterous, even at low temperatures, these liquid-proof protective gloves may also be used as outer gloves over thermal liners or cut-resistant gloves

### Industries

- Food Processing
- Chemical
- Utilities

### Applications

- Dairy Processing
- Fruit and Vegetable Processing
- Poultry Processing
- Prepared Meals

# AlphaTec®

ADVANCED CHEMICAL PROTECTION

## 37-200

Improved grip, dexterity and flexibility

### Key Features

- **UltraGrip™ Technology:** Excellent grip over wet or oily components
- **100% latex-free nitrile compound:** No risk of Type I latex allergies
- **FDA food handling compliance:** Ideal for use as food handling gloves

### Vulcanization Chemical Accelerators

- Zinc Dibutyldithiocarbamate

Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.
